

Announcement from Goodman Masson

4 May 2012

Goodman Masson's Employee Mortgage Scheme Featured in Employee Benefits Magazine

Goodman Masson has achieved a market leading level of staff attrition of 5.3% compared to the market average of approximately 35%.

High staff turnover is common for many of our competitors. Clients and candidates will often feel like there is a "revolving door" when it comes to recruitment consultants. This impacts the business relationship as well as the reputation of the business.

We take care of our people and, in turn, our people care and take the time to understand their clients and candidates

One of the initiatives we introduced as part of our employee engagement programme was our Mortgage Scheme which was featured in the May issue of Employee Benefits Magazine.

Employees can deposit 20% of their annual salary into the mortgage fund via a salary sacrifice arrangement. After three years, we contribute 33% of the total saved. Employees can also add in their bonuses, which we top up at 50% of the total. 19% of our employees have taken advantage of this unique opportunity to help get them on the London property ladder.

To find out more about our benefits programme contact [Keiley Shipperlee](#). If you are a HR professional, and would like to find out how you can improve your company's staff retention rate, [contact](#) our CEO, Guy Hayward.
